Call for the selection of no. 1 temporary research associate position:

The University of Pisa announces the public selection for the assignment of n. 1 research activities grant (hereinafter referred as Research Grants):
"Machine learning methods on multi-type datasets" at the **Department of Mathematics.**

Research grants in technological applications in the 5G environment are financed through the FSC funds of the Nuovo Piano Sviluppo e Coesione (New Development and Cohesion Plan) of Regione Toscana within the framework of the Giovanisì project (www.giovanisi.it), promoted by Regione Toscana to enhance young people's autonomy.

Scientific Sector: MAT/06 – Probability and statistics

Contract duration: 12 months

Gross annual salary: € 28.000,00

Admission requirements:

- Hold a master degree at the time of application submission;

- Be under the age of 36 by the application submission;

Successful candidates currently holding other fellowships or research grants, are asked to renounce before the acceptance of the research grants referred in this notice, without prejudice to the provisions stated in the Law 30/12/2010 n. 240, art. 22, subparagraph III (exception laid down for the scholarships awarded by national or foreign institutions and aiming to complement the research activities with a stay abroad).

Applications:
Applications must be submitted online only, using the following link: https://pica.cineca.it/unipi/

or shall be invalid. An e-mail inbox is required to login and complete the application.

Candidates can login into PICA platform using the digital identifier SPID (Sistema Pubblico d'Identità Digitale - Public Digital Identity System), selecting the University of Pisa among the available Institutions. If candidates have no SPID, they can request it according to the procedures set forth on the website **www.spid.gov.it**.

Candidates can also login with the credentials issued directly by PICA platform (please note: in order to apply online, the system requires an e-mail inbox for self-registration), with their LOGINMIUR, REPRISE or REFEREES account.

Applicants should provide all the required data and upload all documents in PDF format.

The system allows saving an application draft within the application deadline, recording the online application's date and sending a receipt with an automatic reply. After the deadline, the system will not allow login nor application submission.

Each application will be assigned a unique identification number to be referred to in all subsequent communications, along with the selection code provided by the application form.

Under penalty of exclusion, the application shall be valid only if including all the required data, the copy of a valid ID and:

– if submitted **without** accessing with digital identifier SPID, the applicant's signature is compulsorily required;

- If submitted by accessing with digital identifier SPID, the application will be automatically processed by the system and the applicant's signature is not required.

Applicants undertake to promptly communicate in writing any variations of what declared in the application form.

The communication shall be edited in PDF format, signed and forwarded to the Rector of the University of Pisa by the Italian certified e-mail system address (P.E.C. Posta Elettronica Certificata): protocollo@pec.unipi.it or emailed to concorsi_assegni@unipi.it, within the application's submission deadline. An applicant's valid identification document shall be annexed.

For further information on application submission, please refer to concorsi_assegni@unipi.it.

For technical problems support only, please click on the bottom link available at https://pica.cineca.it/unipi.

Applications shall be completed with the following annexes:

1. A self-attested Curriculum of the personal educational, teaching and scientific activities, dated and signed;
2. The qualifications the applicant considers eligible for this selection;
3. The Publications the applicant considers eligible for this selection;
4. A list of Publications and qualifications, dated and signed;
5. A copy of the fiscal code (if applicable) and identification card/passport;

All publications format should not exceed 30 megabyte and should be submitted in PDF <u>only</u>, using the specific section of the application form.
Publications must be uploaded.

Selection procedure:

For each selection procedure the Director of the University Department involved in the research project will appoint a committee of three members.
The selection is assessed by qualifications and interview.

The maximum score to be assigned is 100/100, allocated as follows:

a) consistency between curriculum vitae, studies, and skills gained from any previous experience (max 30 points);
b) qualifications, their amount and quality (max 30 points);
c) grade awarded in the interview (max 40 points);

Admission to the ranking is granted with a score of at least 60/100.

The interview will be held remotely using a video meeting platform, or in presence in Pisa, **on 9th January 2023 at 10 am.**

During the two days before the interview's date, candidates are required to check the relevant page on the University website https://bandi.unipi.it/public/Bandi?type=ASR where they will find all the instructions for the remote interview or in presence interview and/or further information about possible postponement of the interview's date.

The failed attendance to the interview will be considered as a voluntary renunciation.
