

The interview of the public selection for the assignment of n. 1 research activities grant for the research program:

“Innovative nano-technological treatment for the electrophysiological rescue of visual functions in an experimental model of retinitis pigmentosa”

will be held, on **20th December 2022 at 9 am.**

The Committee resolved to interview candidates because the qualifications and publications assessment doesn't result in an exhaustive outcome.

The interview will be held remotely using the Teams platform. In order to participate in the interview, candidates must use as a web browser Chrome or Edge or, if accessing from a mobile phone, with Android or IOS, it will have to download the free Microsoft Teams app.

Candidates will receive a link to which they will have to connect in order to participate in the interview session created by the commission.

The link, however, will not be active before the same day set for the interview.

At the end of the interview, candidates can to know their rating at this link

<https://www.unipi.it/index.php/concorsi-gare-e-bandi>

at the section “Prove, colloqui e sorteggi - Aule virtuali”

The link to the event will be published on the same page to allow connection to any third party who requests to assist.
