

The interview of the public selection for the assignment of n. 1 research activities grant for the research program:

“Design of robots for environmental monitoring tasks: preliminary and finalized design of robotic systems, selection of off-the-shelf components, prototypes implementation”

will be held, on 28th June 2022 at 11.30 am instead of 10 am.

The Committee resolved to interview candidates because the qualifications and publications assessment doesn't result in an exhaustive outcome.

The interview will be held remotely using the Teams platform. In order to participate in the interview, candidates must use as a web browser Chrome or Edge or, if accessing from a mobile phone, with Android or IOS, it will have to download the free Microsoft Teams app.

Candidates will receive a link to which they will have to connect in order to participate in the interview session created by the commission.

The link, however, will not be active before the same day set for the interview.

At the end of the interview, candidates can to know their rating at this link

<https://www.unipi.it/index.php/concorsi-gare-e-bandi>

at the section “Prove, colloqui e sorteggi - Aule virtuali”

The link to the event will be published on the same page to allow connection to any third party who requests to assist.
