

**The interview** of the public selection for the assignment of n. 1 research activities grant for the research program:

**“Design, control and validation of haptic interfaces for advanced human-machine interaction, includingsurgical tele-palpation, based on the investigation of the interplay between tactile perception and motion coding in the human sensory-motor system and in artificial systems”**

will be held, on **26th January 2023 at 11.30 am**.

The Committee resolved to interview candidates because the qualifications and publications assessment doesn't result in an exhaustive outcome.

The interview will be held remotely using the Teams platform. In order to participate in the interview, candidates must use as a web browser Chrome or Edge or, if accessing from a mobile phone, with Android or IOS, it will have to download the free Microsoft Teams app.

Candidates will receive a link to which they will have to connect in order to participate in the interview session created by the commission.

The link, however, will not be active before the same day set for the interview.

At the end of the interview, candidates can to know their rating at this link

<https://www.unipi.it/index.php/concorsi-gare-e-bandi>

at the section “Prove, colloqui e sorteggi - Aule virtuali”

The link to the event will be published on the same page to allow connection to any third party who requests to assist.
