The interview of the public selection for the assignment of n. 1 research activities grant for the research program:

""**Human-centered, Explainable Artificial Intelligence for Collaborative Decision Making:**
• **advanced eXplainable AI (XAI) paradigms in support of synergistic human-machine interaction and collaboration. These should be aware of the characteristics and expertise of the human being interacted with, and prevent potential pitfalls that are common in the XAI literature like confirmation and automation bias.**
• **"human-in-the-loop" co-evolution of human decision making and machine learning models. Human decision makers and their AI assistant should learn from each other and jointly evolve to best exploit their respective strengths and overcome their respective weaknesses, optimizing the final outcome of the joint human-AI system."**

will be held, on 27th february 2023 at 2 pm

The Committee resolved to interview candidates because the qualifications and publications assessment doesn't result in an exhaustive outcome.

The interview will be held remotely.

Candidates will receive a link to which they will have to connect in order to participate in the interview session created by the commission.

The link, however, will not be active before the same day set for the interview.

At the end of the interview, candidates can to know their rating at this link:

https://www.unipi.it/index.php/concorsi-gare-e-bandi

at the section "Prove, colloqui e sorteggi - Aule virtuali".

The link to the event will be published on the same page to allow connection to any third party who requests to assist.
