

The University of Pisa announces public selection procedures for the award of 1 research assignment in accordance with Article 22 ter of Law 240/2010 as set out in Annex A) to this call, in which the information sheets indicating the reference structure, the specific responsibility within the assignment (tutor) and the functions to be performed, as well as the scientific disciplinary area and information on the interview, are provided.

Deadline for submitting the application: 20th October 2026 at 1 p.m.

Contract duration: 12 months

All-inclusive annual administrative gross amount: € 27.800

Admission requirements:

- Master's Degree obtained no more than six years prior to the application deadline (pursuant to Ministerial Decree no. 270/2004, or specialist degrees awarded pursuant to Ministerial Decree no. 509/1999, and degree diplomas awarded under the regulations in force prior to Ministerial Decree no. 509/1999, deemed equivalent to the above-mentioned Master's Degrees pursuant to the Interministerial Decree of 9 July 2009). Only candidates holding a master's degree obtained no more than six years prior to the application deadline are eligible to apply. Candidates who fail to meet this requirement will lose the right to be awarded the research assignment.

Documents to be attached:

The application must include:

- a) A comprehensive scientific-professional curriculum containing all the necessary elements for assessing prior activities and any relevant work experiences, in connection with the content of the assignment under consideration (specifically indicating: date/duration, place of completion, etc.);
- b) A Master's Degree. Candidates holding a foreign master degree must submit the documents and elements useful for the assessment of equivalence to be carried out by the selection board; Documents issued in a foreign language other than French, English, German and Spanish, must be accompanied by a certified Italian translation that conforms with the original text, drawn up by the competent diplomatic or consular representation, or by an official translator.
- c) Additional documents that the candidate deems useful for the selection purposes;
- d) Publications that the candidate considers relevant for the selection, considering the maximum number set for the selection, as indicated in Annex A), with a list signed by the candidate;
- e) Photocopies of the tax code and a current valid identification document.

Candidates must submit the publications they intend to present exclusively in PDF format through the dedicated section of the online procedure.

Each publication shall not exceed 30 megabytes.

Publications not enclosed with the application will not be considered by the Selection Board. Lists with links to texts are not allowed as a replacement for publications.

Applications

Applications must be submitted online only, using the following link: <https://pica.cineca.it/unipi/> or shall be invalid. An e-mail inbox is required to login and complete the application.

Candidates can login into PICA platform using the digital identifier SPID (Sistema Pubblico d'Identità Digitale - Public Digital Identity System) or Carta d'Identità Elettronica (CIE), selecting the University of Pisa among the available Institutions.

If candidates do not have SPID, they can request it in accordance with the procedures set forth on the website www.spid.gov.it or www.cartaidentita.interno.gov.it.

Candidates can also login with the credentials issued directly by PICA platform (please note: in order to apply online, the system requires an e-mail inbox for self-registration), with their LOGINMIUR, REPRISE or REFEREES account.

Applicants must provide all the required data and upload all documents in PDF format.

The system allows saving an application draft within the application deadline, recording the online application's date and sending a receipt with an automatic reply. After the deadline, the system will not allow login nor application submission.

Each application will be assigned a unique identification number to be referred to in all subsequent communications, along with the selection code provided by the application form.

Under penalty of exclusion, the application shall be valid only if including all the required data, the copy of a valid ID and:

- if submitted by accessing the system without the SPID/CIE digital identifier, the applicant's signature is mandatory;
- If submitted by accessing with the SPID/CIE digital identifier, the application will be automatically processed by the system and the applicant's signature is not required.

Applicants undertake to promptly communicate in writing any variations of what declared in the application form.

The communication must be edited in PDF format, signed and forwarded to the Rector of the University of Pisa by the Italian certified e-mail system address (P.E.C. Posta Elettronica Certificata): protocollo@pec.unipi.it or emailed to concorsi_incarichi@unipi.it, within the application's submission deadline.

An applicant's valid identification document must be attached.

For further information on application submission, please refer to concorsi_incarichi@unipi.it.

For technical problems support only, please click on the bottom link available at <https://pica.cineca.it/unipi>.

Selection procedure:

For the selection under Annex A) the Director of the Department appoints a Selection Board consisting of the head of the assignment and two other members.

Candidates are assessed comparatively on the basis of the following elements:

- a) Relevance and significance of the activities previously carried out, as well as any work experience, in relation to the contents of the assignment to the selection, in addition to documented qualifications (such as, for example, degree grade, postgraduate diplomas, any contracts, scholarships, conference presentations, and other documented qualifications);
- b) Quality, originality and innovativeness of the attached publications, as well as their relevance to the assignment under consideration;
- c) An interview aimed at assessing the knowledge of the basic subjects of the scientific disciplinary sector to which the subject of the assignment belongs, the suitability for carrying out the research activity under the assignment, as well as the evaluation of knowledge of the English language and/or other languages

relevant to the research (as reported in Annex A). During the interview, the Selection Board also assesses the knowledge of the Italian language for foreign candidates.

The Selection Board has 100 points available for the comparative evaluation of the candidates: 60 points can be allocated for the criteria mentioned above under a) and b), and 40 points for the interview.

The Selection Board may stipulate a minimum score below which eligibility cannot be awarded.

Candidates are summoned for the interview on the day and time specified in the Annex A) for the procedure.

Failure to attend an interview by a candidate is considered an explicit indication of their intention to withdraw from the selection process.

Applicants for this selection are required to consult the University website at <https://bandi.unipi.it/public/Bandi?type=IRIC> (on the selection procedure page) during the two days preceding the date set for the interview.

On the University website (<https://bandi.unipi.it/public/Bandi?type=IRIC>), in the section dedicated to the procedure, the following will be published:

- **Assessment scores for criteria a) and b);**
- **The list of candidates admitted to the interview;**
- **Practical instructions for carrying out the interview and/or any details should the interview be rescheduled;**
- **The procedure approval decree and the merit ranking that takes into account the scores achieved by the candidates.**

Please note that the English version is provided for courtesy and information purposes only. It cannot be legally used in the event of a dispute or a claim arising from the interpretation of this translation and concerning the contents, a possible uncertainty, contradiction, or discrepancy. Should this occur, the Italian version of the call should prevail as the sole legally binding text. For the full Italian version see: <https://bandi.unipi.it/public/Bandi?type=IRIC> (on the selection procedure page).

Selection code inc-ric_bio2026_4

Department of Biology

**GSD 06/MEDS-24 - Medical Statistics, Hygiene, Public Health, Nursing and Midwifery
SSD MEDS-24/B - Hygiene and Public Health**

CUP I57G26000160002

**Supervisor of the appointee's activities (tutor):
Prof. Marco Verani**

Title of the activities covered by the appointment:

Investigation of genetic determinants of antibiotic resistance in untreated municipal wastewater for epidemiological surveillance

Activities to be carried out (covered by the appointment):

The activities will be carried out in accordance with the programme of the National Action Plan on Antimicrobial Resistance, as adapted to the situation in Tuscany under the relevant Memorandum of Understanding (Regional Resolution No. 1778 of 22 December 2025, Annex A). Wastewater samples collected from the regional network of wastewater treatment plants will be concentrated and processed to detect antibiotic resistance determinants using established and next-generation quantitative molecular techniques, in accordance with the national protocols set out in the Annex to Regional Decree No. 27426 of 29 December 2025. Further molecular investigations may also be incorporated, and the methods may be further developed to provide a more detailed understanding of the extent and spread of antibiotic resistance. The activities described above will be carried out independently and in close collaboration with the research group, including any interns or thesis students involved, whom the appointed researcher may supervise. The scientific results will also be disseminated.

Specific responsibility relating to the activities of the appointment and functions to be performed:

The activities will include managing the sample-receipt workflow according to the project schedule; concentrating wastewater samples by centrifugation and precipitation; extracting nucleic acids from concentrated samples; preparing reagents and subsequently performing molecular analyses of the antibiotic resistance genes included in the panel established by the protocol, using real-time quantitative PCR (qPCR) and digital PCR. The analytical protocols will be further developed through comparative testing following updates to sample-processing methods, molecular targets and the epidemiological situation. The resulting data will be analysed using normalisation procedures based on wastewater parameters (e.g. flow rate, concentrations of chemical parameters, etc.) and subsequently entered into the regional database. Scientific reports describing the results will be prepared following data analysis.

Maximum number of publications that candidates may submit, including the doctoral thesis, if submitted: 2

**Language skills:
English language**

Date, time and mode of the interview:

November 5, 2026 at 11:00 am in presence at the the ground-floor room (San Zeno Microbiologia) at the Department of Biology - via San Zeno, 37 - Pisa
