4. A copy of the tax code (if applicable) and identification card/passport, dated and signed;

All publications should not exceed 30 megabyte and are to be submitted in PDF format only, using the specific section of the application form.

Selection procedure:

A Rector's Decree will appoint the Selection Committee, consisting of three members.

The selection will be made according to a preliminary assessment of the candidates with an accurate and evidenced analytic evaluation of the curriculum, of qualifications and scientific results, including PhD thesis.

After such preliminary assessment, the candidates that have comparatively proven to be the most meritorious, will be admitted to an open interview; they will represent between 10 and 20 per cent of the total and will be not less than six. The interview will concern the applicant's qualifications and scientific results. In the event the number of applicants is six or less, all candidates are admitted.

Information about date, time, list of candidates admitted, and the conditions of the assessment interview will be published on the University website at the following link: <https://bandi.unipi.it/public/Bandi?type=RIC>, in the specific section reserved to the selection, 45 days after the deadline for the submission of the applications (with a guaranteed minimum of fifteen days' notice).

The publication on the University website is to be regarded as an invitation notice for the participants to the selection. Such notice must indicate the day and time; no further communications will be published. Failure to attend the interview will be considered as a voluntary withdrawal from the selection.

The discussion of qualifications and publications, even if it takes place in the form of a seminar open to the public, and the possible test to verify the linguistic skills referred to in article 7 of the relevant University Regulations, will take place in person or, where adequately motivated, remotely or in mixed mode, in compliance with the provisions of Presidential Decree no. 862/2022 of 23 May 2022.

During the discussion of qualifications and publications, an oral test will also be held to ensure adequate knowledge of the foreign language indicated in the announcement.

The Commission will declare the candidate's suitability or otherwise in terms of knowledge of the language.

Academic Discipline: BIOS-01/D Pharmaceutical Biology

Nr. of position available: 1

Focus of research

The research activity will concern the topics pertaining to the scientific-disciplinary sector BIOS-01/D - Pharmaceutical Biology and, in particular, the study of the composition of plants and related plant drugs of pharmaceutical and health interest, as well as natural products of plant origin, biologically active metabolites and phytocomplexes, with specific reference to their identification, characterization and valorization in the botanical-pharmaceutical field

Scientific productivity

The scientific productivity objectives will concern the development of research activities consistent with the scientific-disciplinary sector BIOS-01/D - Pharmaceutical Biology, the production of original results and their dissemination through qualified scientific publications, participation in national and international research activities and projects, and contribution to the scientific valorization of results in the fields pertaining to the sector.

Head office

Department of Pharmacy

Specific teaching activity of the contract

The teaching activity will concern disciplines within the scientific-disciplinary sector BIOS-01/D - Pharmaceutical Biology in Bachelor's, Master's and single-cycle degree programmes offered or to be offered by the Department of Pharmacy and the University, as well as supplementary teaching activities and student support in the fields pertaining to the sector

Candidates may present a maximum number of 12 scientific publications.

Candidates will be required to demonstrate an adequate knowledge of **English language**

Selection code A2

Department of Pharmacy

Academic Recruitment Field: 03/CHEM-01 Analytical, environmental and cultural heritage chemistry

Academic Discipline: **CHEM-01/A Analytical chemistry**

Nr. of position available: 1

Focus of research

The research will focus on the development of methodologies and instrumental techniques for the qualitative and quantitative compositional characterization, as well as the static and dynamic spatial-temporal functional analysis, of chemical systems. It will also investigate processes and methodologies related to pre-analytical stages and matrix interference effects. Furthermore, the research will involve the design and development of materials, instrumentation, (bio)sensors, advanced separation techniques, integrated analytical systems, and characterization methods for medical diagnostics and in vitro simulation of biological systems. To manage the large volumes of data generated in these fields, theoretical models and chemometric tools will be developed and applied for the assessment of the quality, reliability, and significance of chemical information.

Scientific productivity

Production of scientific publications in international journals with high diffusion and impact in the field of analytical chemistry. It is also requested that the results of the work produced be presented at national and international high-profile scientific conferences

Head office

Department of Pharmacy

Specific teaching activity of the contract

Teaching courses of Analytical Chemistry in the degree courses of the Department of Pharmacy and other Departments of the University of Pisa in which the SSD (disciplinary scientific sector) skills are requested.

Candidates may present a maximum number of 12 scientific publications.

Candidates will be required to demonstrate an adequate knowledge of **English language**
